

Adrian Combs

In 2006 Adrian Combs entered the Commercial Real Estate industry and joined his father Billy Combs at Combs Commercial Investment Properties, LLC. Adrian earned the CCIM accreditation and was a highly successful Associate Broker alongside Billy at Combs Commercial.

Adrian graduated from the elite McCombs School of Business at the University of Texas in Austin in 2004 earning a Bachelor's degree in Finance. With his background in Finance, Adrian was extremely knowledgeable in all aspects of negotiating complicated Commercial Real Estate and Land development transactions and was known throughout the Houston area as a Top Commercial Real Estate expert in the Baytown, Port Houston and Chambers County area. He was highly regarded for his unsurpassed knowledge of the marketplace, along with his honesty, integrity and ethical practices.

Adrian was an Eagle Scout and longtime Triathlete. He loved swimming, cycling and running, he completed two full Ironman competitions and multiple half Ironman competitions. He took his passion for sports competitions into his business practice which made him very successful and a huge asset to his long-time clients.

Tragically we lost Adrian in 2024 as he was hit on his bicycle training for another Triathlon, and as a testament to how highly Adrian was regarded in the Community, the road he was killed on has been renamed to the "Adrian Combs Memorial Highway" and also three Scholarships have been created in his honor, two at Lee College, as well one at Barbers Hill ISD.

Hence our slogan now reads "In Memory of Adrian Brian Combs" as we strive to continue Adrian's hard work, honesty and determination in our daily work to help our clients thrive and continue their success in Real Estate.
